

~~TOP SECRET~~
COMMITTEE ON APPROPRIATIONS
U.S. HOUSE OF REPRESENTATIVES

OCA 2482-88

July 26

Paul -

I would appreciate it if you could
help me with the following:

1) make me smart (if that's possible)
on Soviet use, testing, development,

25X1

25X1

If you have a good
Fact sheet or report, that would be
fine. Otherwise a briefing is requested.

2) Also make me smart on Soviet
use, testing, development, etc of corner
reflectors and similar devices to detect
our radar units

25X1

25X1

3) I have had discussions with a
U.S. RPV manufacturer who is
selling RPV's

25X1

25X1

me to meet your person who would
be the action officer if such a
project were to be undertaken? This
is only an idea kicking around up
here, but could blossom into something
more if it makes any sense.

Thanks for the help.
